**Purpose of Contact:** Receipt of Manifested Waste and Return of 2 Contaminated Tank Truck to Envirocare of Utah (EOU)

## Discussion

The following information was discussed with Joe Schieffelin

### Receipt of Manifested Waste – October 22, 2003

Kaiser-Hill notified the Agency that empty tanker trucks containing "P" and "U" EPA Waste Codes would be manifested back to Rocky Flats from EOU as part of the AWTS project (Draining of Tanks 231 B). As the tanks would not be considered RCRA empty [e.g. not triple rinsed until the end of the project (approximately 3 months)], the waste codes are required to be carried on tanker truck. Hence, RFETS will be receiving and signing manifests for returned empty tankers with P and U EPA Waste Codes.

### Return of 2 Contaminated Tank Truck to EOU – October 27, 2003

On October 20 and 22, 2003, two tankers were found to be leaking during loading. The "leaking" consisted of drips that were contained within secondary containment. The waste that had been loaded into the tankers was immediately removed. Prior to future use, the tanker trucks will be hydrostatic and pressure tested and therefore, must be returned to EOU for decontamination prior to release for integrity testing. Due to scheduling issues, the empty tankers could not be transported to EOU until October 27, 2003. Prior to release, the tanker trucks were confirmed empty by swabbing out any excess liquid.

**Follow-up:** The tanker trucks were shipped offsite to EOU the afternoon of October 27, 2003.
